For this pattern we will work the animal starting from the legs and finishing at the head. Let's begin!

# LEGS

With brown yarn start;

- 1 row 6sc in magic ring
- 2 row 6inc. Total: 12sts
- 3 row 12Bpsc (see image 02)

- *Change to white yarn*

4 to 6 row 12SC

- Finish the first leg and make the second one. For the second leg, I changed to white yarn at row 5, to make the stripes uneven (image 03).
- Don't cut the yarn of the second leg;
- Chain one (image 04).

Tip: at the end of each row, count how many stitches you have in total. This will help you to never leave a stitch behind.

- Connect the two legs (introducing the loop inside one stitch of the first finished leg) and start the row 7 (see image 5).

**NOTE:** for row 7 you should make 1SC in the chain, 12SC around the leg, again 1SC in the other side of the chain, 12SC. Having a total of 26 stitches (image 06).

3. Sew the ears starting at row 24 and finishing at row 27.
4. Sew the nose starting from row 22.
5. Sew the horns on top of the head at row 30.
6. Sew the flowers in between the horn and the ears.

# EYES

1. Use pins to help you to find the perfect spot for the eyes.
2. Place them at row 28 with 4 stitches in between them.

(Image 39)

(Image 40)

How I embroider the eyes.

For most of my projects I prefer to embroider the eyes then the plastic safety ones.

First, I start making horizontal lines respecting some imaginary contour of the eyes. Then, I make vertical lines to finish filling empty gaps. I finalize outlining the shape I just made. And that's it!
