ASSEMBLY

(Image 37)

1. Use pins to fasten the body parts of the toy in a way that looks symmetrical to you.
2. Sew the arms at row 14 of the toy
3. Sew the ears at row 5 of the overhead.
4. Place the overhead in the central part of the top of the head. Sewing here is not needed but I think it looks nicer when you do it.

(Image 38)

EYES

1. Use pins to help you to find the perfect spot for the eyes.
2. Place them at row 22 with 2 stitches in between them.

(Image 39)

(Image 40)

How I embroider the eyes.

For most of my projects I prefer to embroider the eyes then the plastic safety ones.

First, I start making horizontal lines respecting some imaginary contour of the eyes. Then, I make vertical lines to finish filling empty gaps. I finalize outlining the shape I just made. And that's it!

Congratulations!!!

Your toy is ready!
