For this pattern we will work the animal from the leg to the head.
Let's begin!

ASSEMBLY

(Image 31)

(Image 32)

1. Use pins to fasten the body parts of the toy in a way that looks symmetrical to you.
2. Sew the arms at row 16 of the toy
3. Sew the ears starting at row 24 and finishing at row 27.

EYES

1. Use pins to help you to find the perfect spot for the eyes.
2. Place them at row 28 with 4 stitches between them.

(Image 34)

(Image 35)

How I embroider the eyes.

For most of my projects I prefer to embroider the eyes then the plastic safety ones.

First, I start making horizontal lines respecting some imaginary contour of the eyes. Then, I make vertical lines to finish filling empty gaps. I finalize outlining the shape I just made. And that's it!

HAIR

1. Cut 30 pieces of dark brown yarn with 20cm size. As much hairy you want the horse to be, more pieces of yarn you add in his head.
2. Attach one by one, as shown in the pictures.
